**Easter – New Life**

The resurrection of Jesus has meaning for all of us in this life. Christ’s resurrection is not an event of the past; it contains a vital power which is present in the world today. Where all seems to be dead, signs of the resurrection suddenly spring up each Easter. Each of us has seen this happening when someone recovers from illness; when we somehow get new energy after a period of disappointment in study or work; when reconciliation happens after a rift with a friend or family member. In so many ways life teaches us that there is always space for hope. This is movingly put into words by Pope Francis in a hope-filled creed at the end of his letter. *The Joy of the Gospel*:

*“Faith means:*

*Believing in God*

*Believing that God truly loves us*

*Believing that God is alive*

*Believing that God does not abandon us*

*Believing that God brings good out of evil by his power and is his infinite creativity. Amen”*
